

How to find your IMEI?

IMEI number: The IMEI stands for International Mobile Equipment Identity and is used to distinguish a mobile phone across all companies worldwide. The number can be used to identify and track a device that might be stolen or compromised.

Galaxy Smartphone

- **Packaging box:** You can find the IMEI number for your Galaxy Smartphone on a sticker on the box below a barcode.
- **Printed on the device:** The IMEI is printed in small text on the back of the device near the bottom.
- **Check IMEI through phone call:** You are able to check the IMEI number of your device by making a simple phone call. Open the Phone application on your device. Dial ***#06#** and a pop up will automatically show up on your screen showing you the IMEI number for your device.
- **Settings:**
 - Open Settings on your device
 - Scroll to the bottom of the page and Select About phone
 - You will find the IMEI located at the top of the page.
